Dear ,

We are progressing with the redevelopment of Anson Road and we now need to carry out a further bat survey. I know that you were inconvenienced a couple of weeks ago so I wanted to give you plenty of warning of the ecologists intended visit. They will be carrying out surveys of no's 4, 5, 6, 8, 9, 11, 14, 16 and 18 which **includes** your home.

Our Consultant from Bagshaw Ecology, David Watts whom you met, would like to visit to carry out the surveys in August. He will need access to your front and rear garden as well as **access to your roof space** and will need to access the property to enter the roof space via the loft hatch.

Access to front and rear Garden

Access to your front and rear garden is required at the following times on the evening of 9th and early morning of 10th August:-

- 9th August - between 9:00pm to 11:00pm
- 10th August – between 3:30am -5:00am

Access to roof space via loft hatch in your home

David would like to gain access to the roof space of your home on the 9th August around **8:30pm**. I believe David told you that he would return. If you would like somebody with you during the visit please arrange for a member of your family to be with you on the 9th August.

I would be grateful if you could make arrangements for David to access your house and rear garden as detailed above. If you are only available at a certain time then I would really appreciate it if you could arrange for a family member, friend or neighbour to be at the property to enable us to gain access. I appreciate these dates may cause you inconvenience so do call me if this presents a problem to discuss how I may help.

Thank you for your assistance with the surveys to date, your help is much appreciated, if you have any queries, please do not hesitate to contact me.

Yours sincerely

Claire Thomas
